

how to make the MIT License for our project and include that in the readme

This is straightforward and a good practice for your project 👍 — I'll walk you through it exactly like you'd do in a real GitHub repo.

✅ Step 1: Create the MIT License file

In your project root, create a file named:

LICENSE

Then paste this standard MIT License template:

MIT License

Copyright (c) 2026 Your Name / Your Team Name

Permission is hereby granted, free of charge, to any person obtaining a copy of this software and associated documentation files (the "Software"), to deal in the Software without restriction, including without limitation the rights to use, copy, modify, merge, publish, distribute, sublicense, and/or sell copies of the Software...

[keep the rest exactly as standard MIT text]

👉 Important:

- Replace 2026 with the current year
- Replace Your Name / Your Team Name with your actual name or group name

If you're in a team project (like your Dublin Bikes one), use something like:

Copyright (c) 2026 COMP30830 Team

✅ Step 2: Add it to Git

↻ Bash

```
git add LICENSE
git commit -m "Add MIT License"
git push
```

✅ Step 3: Reference it in your README

In your README.md, add a section like this:

↻ Markdown

📄 License

This project is licensed under the MIT License. See the LICENSE file for details.

✅ Step 4 (Optional but nice): Match the style in your screenshot

If you want the exact GitHub-style section like your image:

```
</> Markdown

---

## 📄 License
```

This project is licensed under the MIT License. See the LICENSE file for de

💡 Extra (what GitHub does automatically)

Once you:

- add a `LICENSE` file
- push to GitHub

GitHub will automatically:

- show "MIT License" at the top of your repo
- link it nicely (like your screenshot)

⚠️ Common mistakes (avoid these)

- ❌ Naming file `MIT.txt` → must be `LICENSE`
- ❌ Editing the license text too much → keep standard wording
- ❌ Forgetting copyright line
- ❌ Putting license only in README (not enough)

🎯 For your project specifically

Since this is a university group project, best option:

```
Copyright (c) 2026 COMP30830 SE Project Team
```

If you want, I can:

- generate the **full MIT license text filled with your team name**

do I need to sign up for MIT something
